

Amendments to the Specification:

Please substitute the following amended paragraph for paragraph [0039].

Elements of the present invention may be embodied in hardware and/or software as a computer program code that may include firmware, resident software, microcode or the like. Additionally, elements of the invention, such as methods 200, 300, 400 and 500, may take the form of a computer program product on a computer-usable or computer-readable storage medium having computer-usable or computer-readable program code embodied in the medium for use by or in connection with a device or system, such as device 100 or system 102 of Figure 1. Examples of such a medium may be illustrated in Figure 1 as network 144, data source 148 or similar devices. A computer-usable or readable medium may be any medium that may contain, store, communicate or transport the program for use by or in connection with a device or system. The medium, for example, may be an electronic, magnetic, or optical. ~~optical, electromagnetic, infrared or semiconductor system or the like.~~ ~~The medium may also be simply a stream of information being retrieved when the computer program product is "downloaded" through a network such as the Internet.~~ ~~The computer usable or readable medium could also be paper or another suitable medium upon which the program may be printed.~~
